Install LockDown Browser Chrome Extension

Students using Chromebooks will need to install the LockDown Browser Chrome extension

Please Note: The LockDown Browser Extension is not available for download from the Chrome Store and can only be downloaded with the Wesleyan College link. The download link is unique to the college.

1. Log into the Chromebook and start Google Chrome
2. Log into Canvas and navigate to the exam that requires Lockdown Browser
3. Select the link for downloading and installing Lockdown Browser. You will be directed to the Chrome web store during the installation process.
4. Click **Add to Chrome** to install the extension.

5. A confirmation message will appear once the LockDown Browser for Chromebook extension has been installed.
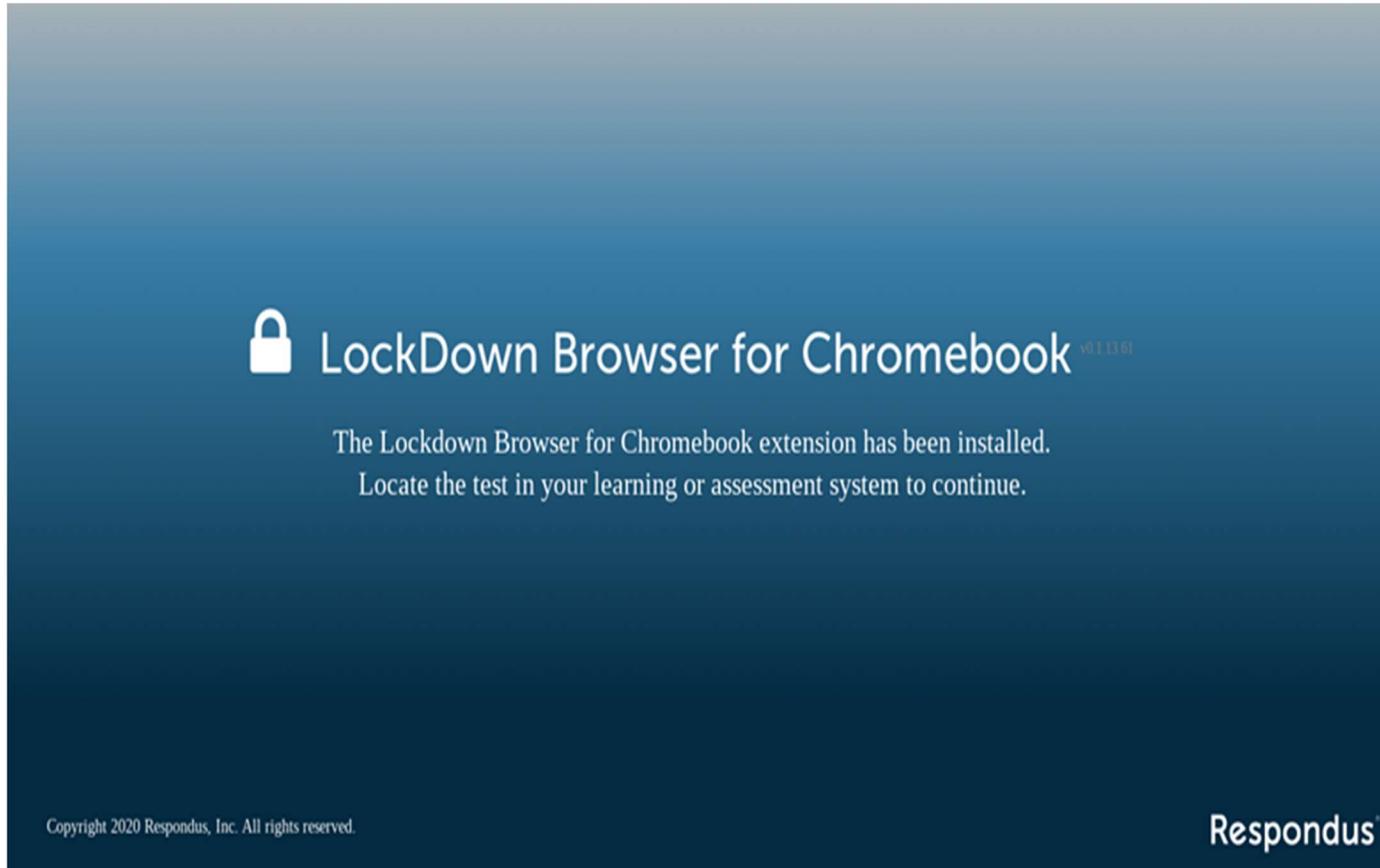

6. Once the installation is complete close or restart the Chrome browser.
7. Log into Canvas and navigate to the test that requires Respondus LockDown Browser.
